Wilfred's

ABOUT WILFRED'S

A quest for the perfect Spritz. As we became increasingly frustrated by the uninspired, overly sweet and usually unhealthy non-alcoholic options available, both at home and when out, we decided something had to be done. And so started our quest to reinvent a drink for the new era of drinkers, a drink that captured all the complexity of the greats but without the alcohol.

We unwittingly found ourselves reinventing the spritz...It starts with innovation, and ends with great taste. As an engineer and inventor with a passion for cocktails, our founder Chris Wilfred Hughes embarked on a journey of exploration and experimentation. Flavour, quality and complexity were of the utmost importance, and this mindset led Chris to over 18 months of experimentation and more than 100 unique recipes to get Wilfred's just right for the perfect Spritz.

WILFRED'S BITTERSWEET APERITIF

Available: 500ml

Tasting Notes: A carefully crafted blend of distilled and extracted natural rosemary, bitter orange, rhubarb and clove. Wilfred's is free from alcohol, allergens, artificial flavours, sweeteners and colours, vegan-friendly, and a naturally lower calorie aperitif.

Serve up as a spritz. Wilfred's, an unusual British aperitif, is best enjoyed over ice with premium tonic water for a vibrant and refreshing spritz.

ABOUT JUMP SHIP BREWING

Award-winning alcohol-free craft beer in Scotland's first and only dedicated alcohol-free brewery.

"I tasted my first beer moments after my first rugby match. I'd made a try-saving tackle that helped win us the game and the team captain brought in a jug of ale to celebrate. There and then I decided that not even the finest champagne could beat the flavour of a freshly-pulled pint. But as the years passed and life got busier - enter three children, dog and busy job - I found that although I still wanted to relax with a beer, I no longer wanted the alcohol or fuzzy head next day. None of the low alcohol beers I tasted matched up to the amazing Scottish beers I enjoyed, so I took a deep breath, jumped ship from my day job and set off on a voyage of discovery to brew my own.

It took nearly a year to perfect our first beer, Yardarm, and I wept into more than one failed brew. So imagine my delight when Yardarm was awarded best no and low alcohol lager in the World Beer Awards 2021, beating global brands in the process. Not bad for a wee start-up from Edinburgh!

Since those humble beginnings in 2019 we've gone from strength to strength, building an incredible crew of likeminded folk and moving into our own brewery at the start of 2024. We're now brewing more beer than ever before with a core range of four beers available year-round, complimented with a number of special releases throughout the year."

- Sonja Mitchell, Founder
